

Best Management Practices Workshop for Professionals

Workshop Topics Include the following:

- Coastal Processes geology and hydrology
- U.S. Army Corp of Engineers permitting
- New York, Ohio and Pennsylvania state Regulations
- Conservation District Permitting
- Using vegetation to stabilize the shoreline
- Conservation Design
- Habitat Impacts of Riparian Projects
- Ecological impacts of shoreline erosion
- In-stream habitat/bank stabilization devices
- Landscape solutions for erosion-prone areas

Funded by the Pennsylvania Coastal Resources Management Program and facilitated by Pennsylvania Sea Grant this two-day workshop targets Realtors, Coastal and Environmental Engineers, Landscape Architects, and municipal/state/federal employees who work along the Lake Erie shoreline in New York, Ohio and Pennsylvania.

Held at the Lodge and Conference Center at Geneva on-the-lake, this workshop will focus on shoreline erosion and recession; Best Management Practices (BMPs); federal, state and local permitting; public access; and tried and true methods of bluff stabilization. It will showcase similarities and differences between New York, Pennsylvania and Ohio regulations and will introduce participants to pertinent agency staff.

**Classroom Session: Monday, April 20, 2009
8 a.m. to 5 p.m.**

**Site Visits: Tuesday, April 21, 2009
8 a.m. to 3 p.m.**
