Ohio State University Extension

Ohio's Non-native Invasive Species

THE OHIO STATE UNIVERSITY COLLEGE OF FOOD, AGRICULTURAL, AND ENVIRONMENTAL SCIENCES

OSU Extension embraces human diversity and is committed to ensuring that all educational programs conducted by Ohio State University Extension are available to clientele on a nondiscriminatory basis without regard to race, color, age, gender identity or expression, disability, religion, sexual orientation, national origin, or veteran status.

Keith L. Smith, Associate Vice President, Agricultural Administration and Director, OSU Extension TDD No. 800-589-8292 (Ohio only) or 614-292-1868

Invasive Species Workshop

Woodland owners and land managers are faced with a daunting task when it comes to invasive species and the lands they manage. Invasive species come in all shapes and sizes and include insects, diseases, plants and mammals. Depending on where you are in the state there are a variety of species that are having very negative impacts on our native habitats. This workshop will cover the identification of those species, what species you should have on your radar and what your options are for dealing with the problem once you have it.

Agenda

Q	:30	1	Reg	ictr	·ati	on
ō	:3(,	ĸeg	ıstr	au	On
