

**INDIAN LAKE – Logan County, (5,040 acres), unlimited horsepower**

**Bluegill** – 6-8", good population. Many quality bluegills are taken through the ice using maggots. OUTLOOK – GOOD.

**Channel catfish** – good population. Under utilized fishery, night fishing in areas with current is especially good during summer months. Tributary streams good immediately after ice-out. Note: no bag limit, only one fish 28 inches and larger. OUTLOOK – FAIR.

**Crappie** – good number, 7-12". Spring and fall are best using minnows or small jigs around shoreline cover. OUTLOOK – GOOD.

**Largemouth bass** – decent population, 12-18", some larger. Channels and vegetated areas are best, riprap with shoreline cover produce well. 12" minimum length limit. OUTLOOK – GOOD.

**Saugeye** – fingerlings have been stocked annually since 1990. Number one lake in the state for Fish Ohio awards in 2004. Try the Moundwood canal feeder during winter and Old Indian Lake area in summer, South Bank is good also. OUTLOOK – EXCELLENT.

**White bass** – fair population, 10-14". South Bank area is good during April and May. Night fishing with minnows near bridges is popular during the summer months. OUTLOOK – FAIR.

**Yellow Perch** – small population, try offshore of South Bank or the Old Indian Lake area throughout the year. OUTLOOK – FAIR.
