PRICES PAID OHIO TIMBER PRODUCERS, MARCH-MAY 1973

Timber prices in this report represent prices paid during the period March-May 1973. This is a semi-annual report and should be used only as a GUIDE for determining the price and value of timber to be marketed. The current market supply and demand are the key factors in the price levels. Other important factors affecting price are: Accessibility; roads; right-of-way; site and terrain; distance to market; tree size and quality. These factors explain the wide range in some of the prices shown by specific grade, size and species. Data shown reflect prices based on the INTERNATIONAL LOG RULE.
