PRICES PAID OHIO TIMBER PRODUCERS - MARCH-MAY 1980

These price quotations reflect reported prices paid to Ohio timber producers during March, April and May. Reported prices are for both the Doyle and International log rules and are comparable to previous timber price releases. This report is intended to provide a general guide to standing timber and log prices.

Prices may vary from one locality to another reflecting important factors such as: accessibility, right of ways, terrain, distance to haul, tree size, quality and quantity. These quotations are survey data on prices only and do not reflect the volume of logs sold nor are the prices weighted.

STUMPAGE PRICES: During the March-May pricing period, most species prices were generally lower than during the previous period (September-November 1979). However the exceptions were walnut stumpage for use as general saw timber and some walnut stumpage grades used for face and veneer.

DELIVERED SAWLOGS: Prices received for sawlogs delivered to mills during March-May were substantially lower than September-November 1979 for most species. The exceptions were walnut and white oak.

Stumpage - Average and range of prices paid for Ohio timber by area, species and use, March-May 1980

PRICES PAID OHIO TIMBER PRODUCERS - SEPTEMBER-NOVEMBER 1979

These price quotations reflect reported prices paid to Ohio timber producers during September, October and November. Prices reported are for both the Doyle and International log rules comparable to previous timber price releases. This report is intended to provide a general guide of timber and log prices.

Local prices will vary, reflecting important factors such as: accessibility, right of ways, terrain, distance to haul, tree size, quality and quantity. These quotations are survey data on prices only. This survey does not indicate volume of logs sold nor are the prices weighted.

STUMPAGE PRICES: During the September-November pricing period, prices generally averaged higher than the previous period (March-May). Walnut face and veneer stumpage prices generally increased from the previous two survey periods. All white oak prices were higher.

DELIVERED SAWLOGS: Average prices received for all grades sold during the September-November pricing period were higher than both March-May 1979 and the comparable period in 1978.

Price paid to Ohio producers for unpeeled pulpwood, charcoal and ferro-alloy timber delivered to buyers during September-November ranged from \$10.00 to \$14.30 per ton and averaged \$12.75.

The Service Forestry Section, Division of Forestry, Ohio Department of Natural Resources; the Division of Markets, Ohio Department of Agriculture and the Economics, Statistics and Cooperatives Service, U.S. Department of Agriculture are grateful for the cooperation of the buyers, mills and others who made possible this report on Ohio timber products.

The next report will be issued for the period March-May 1980.
