## PRICES PAID OHIO TIMBER PRODUCERS - MARCH-MAY 1981

These price quotations reflect reported prices paid to Ohio timber producers during March, April and May 1981. Reported prices are for both the Doyle and International log rules and are comparable to previous timber price releases. This report is intended to provide a general guide to standing timber and log prices.

Prices may vary from one locality to another, reflecting important factors such as: accessibility, right of ways, terrain, distance to haul, tree size, quality and quantity. These quotations are survey data on prices only and do not reflect the volume of logs sold nor are the prices weighted.

**STUMPAGE PRICES:** During the March-May pricing period, most species prices were mixed. Most walnut and white oak stumpage grades used for face and veneer were higher than the previous reporting period.

LOGS DELIVERED FOR PULP, CHARCOAL AND FERRO-ALLOY: Prices paid for unpeeled pulpwood, charcoal and ferro-alloy timber delivered to buyers (f.o.b. cars or mill) during March-May ranged from \$14.00 to \$14.50 per ton and averaged \$14.33 per ton.

DELIVERED SAWLOGS: Prices paid for sawlogs delivered to mills during March-May 1981 mostly average higher for all grades than previous pricing period and a year earlier.

The Service Forestry Section, Division of Forestry, Ohio Department of Natural Resources, the Division of Markets, Ohio Department of Agriculture and the Statistical Reporting Service, U.S. Department of Agriculture are grateful for the cooperation of the buyers, mills, and others who made possible this report on Ohio timber products.

The next report will be issued for the period September-November 1981.

**PRICES PAID OHIO TIMBER PRODUCERS - SEPTEMBER-NOVEMBER 1980**

Price quotations presented in the tables of this release reflect reported prices paid to Ohio timber producers during September, October and November 1980. Prices reported are for both the Doyle and International log rules and are comparable to previous timber price releases. Data presented in this release is intended to provide a general guide to standing timber and log prices.

Timber prices may vary from one locality to another, reflecting important factors such as: accessibility, right of ways, terrain, distance to haul, tree size, quality and quantity. These quotations are survey data on prices only and do not reflect the volume of logs sold nor are the prices weighted.

**STUMPAGE PRICES:** During the September-November pricing period, most species prices were mixed, but many averages were slightly higher than the previous pricing period, March-May 1980. Most walnut stumpage grades used for face and veneer were lower than the previous reporting period. However, the average prices received for larger white oak logs used in face and veneer were higher than March-May 1980.

DELIVERED SAWLOGS: Prices paid for sawlogs delivered to mills during September-November 1980 were generally higher for prime grades than March-May 1980. However, the no. 3 grades and culls were lower.

LOGS DELIVERED FOR PULP, CHARCOAL AND FERRO-ALLOY: Prices paid for unpeeled pulpwood, charcoal and ferro-alloy timber delivered to buyers (f.o.b. cars or mill) during September-November ranged from \$14.30-\$16.00 per ton and averaged \$14.93 per ton.

The Service Forestry Section, Division of Forestry, Ohio Department of Natural Resources, the Division of Markets, Ohio Department of Agriculture and the Economics and Statistics Service, U.S. Department of Agriculture are grateful for the cooperation of the buyers, mills and others who made possible this report on Ohio timber products.

The next report will be issued for the period March-May 1981.
