BARNESVILLE LAKE #4

Belmont County

LOCATION

Barnesville Lake #4 is located in Warren Township, Belmont County. This public lake is within the village of Barnesville's Memorial Park. Barnesville Lake #4 is accessible off Fair Street via North Chestnut Street and State Route 800.

HISTORY AND DESCRIPTION

The land and water area is owned and managed by the village of Barnesville for recreational purposes. The topography includes wooded hills and open park land. Included in the park are hiking trails, picnic areas, and a variety of recreational facilities. The lake encompasses 14.2 acres at normal pool with a shoreline length of 1.1 miles. The maximum depth is 24 feet.

FISH OF INTEREST TO ANGLERS

Barnesville Lake #4 has populations of largemouth bass, channel catfish, and bluegill. The ODNR Division of Wildlife stocks channel catfish yearlings in alternate years.

METHODS OF FISHING AND BEST FISHING SITES

Better largemouth bass fishing can be found in the spring and fall. As springtime water temperatures warm up, bass will move into shallow water areas to feed and to prepare for spawning. Fish near shallow structure such as tree stumps, fallen trees, or weed bed edges. Spinnerbaits, rubber worms, crankbaits, and jig/pig combinations work well. Warm summer water temperatures will usually push fish into deeper depths. Fishing during the early morning hours or in the evening will provide better results. Cooler, fall temperatures will trigger bass to move back in the shallow water areas. Fishing success may pick up as bass prepare for winter.

Bluegill can be caught throughout the lake from early spring until fall. Popular methods include waxworms or redworms fished below a bobber. Look for spawning beds in shallow water during the spring and throughout the summer. Many bluegill can be found concentrated in these areas.

Channel catfish angling picks up by mid-June. Nightcrawlers, chicken livers, or prepared catfish baits work well when fished on the bottom. Night fishing for catfish is a popular method for catfish anglers.

RECREATIONAL FACILITIES

A small, gravel boat ramp is located on the north side of the lake. Designated picnicking and hiking areas are located off the Fair Street entrance. A variety of recreational facilities are located within the park. Motors (including electric) are not permitted.

FISH OHIO

Anglers who catch a big fish should enter their prize in the Fish Ohio angler recognition program. A fish qualifies for an award if it meets the minimum size requirement set for the Fish Ohio program. Applications are available from the Division of Wildlife and from many tackle and bait stores. An application is also available in the Fishing Regulations Digest.

FISH MANAGEMENT ACTIVITIES

The Division of Wildlife's fish management activities include stocking, population monitoring with nets, electrofishing surveys, angler surveys, felling trees, and preparing Christmas tree piles to act as fish attractors. Additionally, fish management personnel conduct general water quality analyses. A continuing check of water quality and fish populations is vital in determining the management practices necessary to produce quality fish for the public.

ADDITIONAL INFORMATION

Fish management questions and inquiries can be directed to Wildlife District Four, 360 East State Street, Athens, Ohio 45701; telephone 740-589-9930. The Division of Wildlife also has a Web site for information on fishing regulations, tips, maps, and other wildlife related material (www.wildohio.com). To get other maps or publications call toll free, 1-800-WILDLIFE. Questions and inquiries pertaining to Barnesville Lake #4 and Barnesville Memorial Park can be directed to Barnesville Park and Recreation Center, 130 Fair Street, Barnesville, Ohio 43713; telephone 740-425-3012.

TURN IN A POACHER

Ohio's TIP, "Turn In a Poacher," program is helping curtail poaching throughout the state. TIP is designed to involve the public in reporting wildlife violations. Citizens who observe wildlife violations should call the TIP toll-free hotline, 1-800-POACHER.
